## DUVETS

**Our Duvets**  
*Are manufactured to the  
 highest possible standards -  
 your satisfaction is our best  
 advertisement*

**Are you concerned  
 about how plucking  
 affects the geese?**  
 Don't be. Plucking  
 the "ripe" feathers  
 is like cutting  
 your nails.

## PILLOWS

### Pure Down or Layered Pillows

Choosing the correct pillow is a personal choice. We have a wide range of pillows from really soft (Soft, Down) to the very firm (Firm, Layered).

The Soft Goose Down Pillow is at the one end of the spectrum and is a dreamily soft pillow; ideal for those who tend to wrestle with their pillow at night. In general Goose Down pillows are soft and yielding – those are their main features.

Our Layered Pillows have a core or “spine” of feathers, around which we wrap a thick layer of down – rather like a sandwich.

The feathers provide the support and are what give the pillow spring.

The Down offer the fantastic soft feeling, that only Down can give.

**A bit more on  
Thread Count  
and luxury  
linen:**

The best quality linen is made from cotton with a long fibre (long-staple) and in a one-on-one configuration.

This means the fabric is woven with a strong fibre, being longer and more importantly the Thread Count (TC) is obtained by having one vertical and one horizontal cotton strand as opposed to a cheaper format of 2 vertical vs 1 horizontal of a much thinner and shorter fibre.

Chat to us for more detail but in short, Ember Linen is fantastic quality at affordable prices.

## COMFORTERS
