**Are you concerned  
 about how plucking  
 affects the geese?**  
 Don't be. Plucking

 is like cutting  
 your nails.

## PILLOWS

### Pure Down or Layered Pillows

Choosing the correct pillow is a personal choice. We have a wide range of pillows from really soft (Soft, Down) to the very firm (Firm, Layered).

The Soft Goose Down Pillow is at the one end of the spectrum and is a dreamily soft pillow; ideal for those who tend to wrestle with their pillow at night. In general Goose Down pillows are soft and yielding – those are their main features.

Our Layered Pillows have a core or “spine” of feathers, around which we wrap a thick layer of down – rather like a sandwich.

The feathers provide the support and are what give the pillow spring.

The Down offer the fantastic soft feeling, that only Down can give.

*A bit more on Thread Count and luxury linen:*

*The best quality linen is made from cotton with a long fibre (long-staple) and in a one-on-one configuration.*

*This means the fabric is woven with a strong fibre, being longer and more importantly the Thread Count (TC) is obtained by having one vertical and one horizontal cotton strand as opposed to a cheaper format of 2 vertical vs 1 horizontal of a much thinner and shorter fibre.*

*Chat to us for more detail but in short, Ember Linen is fantastic quality at affordable prices.*

**Colours Available:** Pure White • White Feather Emboss  
 Dove Egg Feather Emboss • Ivory Feather Emboss  
**Single-Pick • Long-staple**
